Advertisements unaccompanied with special directions will be inserted until ordered out.

SPECIAL RATES for Commercial Advertisements furnished on application.

AGENTS.—A liberal cash commission allowed to persons calling *The Leader*, or getting up a club. Write for terms.

THE LEADER has undoubtedly a larger circulation than any other North-West newspaper, and is consequently the most valuable advertising medium.

ENGLISH REPRESENTATIVE—E. &amp; J. HARDY &amp; CO., 30 Fleet Street, London, E.C. England.

VOL. 20. NO. 19.

Regina, N.W.T., Thursday, June 25, 1903.

## THE CITY OF REGINA.

On Friday last the royal assent was given to the Bills passed by the Legislative Assembly at its recent session and by virtue of one of these Regina became a city. An event of this nature and importance naturally invites a look backward as well as a look forward, and a glance through the files of THE LEADER, where the history of Regina is recorded as perhaps nowhere else—for this paper made its first appearance a few months after Regina was founded,—tells the story of its early days, with its struggles, triumphs and disappointments. Founded by hardy pioneers who came here in advance of the C.P.R. the little hamlet grew with the advent of that road. Settlers came in with the railway and for a time events moved forward with great rapidity. Soon it was selected as the seat of the Territorial Government and the officials were moved here. In December, 1883, just about 20 years ago, Regina was incorporated as a town, though even then it was spoken of by its inhabitants as the Royal City. For many years afterward it did not prosper as it had been expected it would. It practically stood still but there were those who still had unbound faith in its future. About eighteen months ago a remarkable change took place and from that time to the present Regina has been enjoying unparalleled prosperity and forging rapidly ahead until today it is recognised as the coming metropolis of the North-West Territories.

A look forward causes one to become enthusiastic over the city's future. That future promises to be of the brightest. The development of the past months has been based on a substantial foundation and a look into the future discloses much of a still more substantial character on which the future city will be built. That Regina will shortly become a very important railway centre seems now to be generally admitted.

As was very forcibly stated by all the speakers at the celebration last week the duty of making Regina great as a city rests with its citizens. The Legislative Assembly has cleared away the obstacles which stood in the way of the carrying on of public works necessary to our development. It now rests with the people to make of this city what they will. The Mayor has expressed the hope that the representative men and the press will lead the movement to make Regina the city it can and ought to be. THE LEADER re-echoes the wish. The first duty devolves on the city council to see that every possible effort is made and that no unnecessary delay occurs in the establishment of waterworks, construction of sewers and installation of electric street lighting. These modern conveniences will mean better health to the community, the erection of a superior class of buildings and the beautifying and general improvement of the city. These things we cannot have a day too soon.

The long depression of the early days engendered some petty feelings of rivalry and narrowness. Much of this feeling has passed away with the new spirit of the times and the incoming hundreds of new citizens. But it must all go. The citizens must realise that they are all partners in one great enterprise which is for the benefit of all. The town has grown and developed into the larger and broader standing of a city and its citizens must also grow out of the narrowness of a struggling town into the larger, broader and loftier ideas of a prosperous and growing city. Mr. G. W. Brown offered good advice when he urged that we should emulate the spirit of the old Romans. Sir Wilfrid Laurier once said that the aim of his life was to see Canada so developed that the proudest boast of its citizens wherever they might go would be to say, "I am a Canadian." So should the citizens of the City of Regina work together to make the name of Regina a synonym of a true public spirit, civic enterprise and progress. Let the carpings, fault-finding obstructive spirit be replaced by one of enthusiasm, of criticism that aims at reform, and of a constructive rather than an obstructive policy.

In the Legislature last Thursday Mr. R. B. Bennett drew a striking comparison between the development of the Territories under Liberal and Conservative administrations, a comparison which was not very flattering to his own party. His references to imports and exports which had increased by 100 per cent. under the Liberal Government in seven years, and to the fact that since 1896 the population of the Territories had doubled, were made solely for the purpose of condemning the Dominion Government for not giving the North-West a larger grant

but they were none the less a strong endorsement of the general administration of Sir Wilfrid Laurier's Government.

REGINA has passed from a town into a city. The next change will be the development of the North-West from a territory into a province.

## ASSEMBLY DEBATES.

(Continued from page 1)

agricultural and live stock matters so that in future no society or association can expand any of its funds for horse racing or other sports. Funds for such purposes must be raised independent of the society. The Bill was read a second time and progress with same made in committee.

## NOXIOUS WEEDS.

The second reading of the Bill respecting Noxious Weeds was also moved by Dr. Elliott. One amendment to the present Ordinance proposed by the Bill is to provide for the disposal of screenings from elevators for the purpose of sheep feeding. The most important change made by the Bill is to throw on the owner of land adjoining a public road the responsibility of keeping the portion of the road which lies between the centre of same and its adjoining property free of noxious weeds. The Bill was read a second time and also considered in committee.

Mr. Shera secured second reading to the Bill to incorporate the Bishop of the Russo-Greek Catholic Orthodox Church, and Mr. Young to incorporate the Western Canada College, both Bills being also considered in committee.

The Bill to incorporate the Western Canada Historical Society was passed through committee and the amendments to the Bill read a second time.

Progress in committee was reported with the Bills respecting Trust Companies, Foreign Companies, and to amend the Ordinance incorporating Strathcona. The Bill to amend the Ordinance respecting the Form and Interpretation of Ordinances was passed through committee and reported.

## THE ESTIMATES.

Just before the House rose Premier Hautain laid on the table of the House the estimates for 1903. They provide for a total expenditure of \$711,843.50, made up as follows: Civil Government, \$71,230; Legislation, \$22,375; Administration of Justice, \$13,400; Public Works, \$308,250; Education, \$27,330; Agriculture and Statistics, \$20,331; Charities and Public Health, \$20,331; Miscellaneous, \$32,607.50.

## FINANCIAL AND CONSTITUTIONAL QUESTION.

The Premier also laid on the table copies of further correspondence with the Federal Government relating to the subject of the memorial of the Legislative Assembly of May 2, 1900, upon the financial and constitutional position of the Territories also the correspondence between the Federal and Territorial Governments respecting the amount to be appropriated by Parliament for expenditure by the Government of the Territories during the calendar year 1903.

The correspondence on the financial question shows that the Dominion Government proposes to ask Parliament to provide the following amounts for Government of the Territories: To provide for the over expenditure of 1902, \$250,000; vote in main estimates for fiscal year 1903-04, \$457,979; supplementary vote to main estimates, \$250,000; advances from time to time as required for local improvement on capital account up to \$250,000, the sum of \$84,000 to be charged to this account for the rebuilding of bridges at Macleod and Lethbridge.

## AFTER RECESS.

The House re-assembled at eight o'clock and immediately went into committee of the whole on the Bill respecting certain kinds of contemplated municipal public works for the town of Moose Jaw. This Bill is to provide for the installation of waterworks, sewers and electric light and for the proper management and administration of the same. The Bill is similar to that granting the same powers to Edmonton and so passed through committee with little discussion.

At ten o'clock the House went into committee on the Bill to amend the Liquor Licence Ordinance but only the non-controversial clauses were dealt with. Premier Hautain moved an amendment providing that the provision compelling all hoteliers in incorporated towns to provide at least twenty bedrooms and in villages at least one shall not, so far as hotels now having licences are concerned, come into effect until July 1, 1905, thus giving them two years in which to comply with the new provisions. The House adjourned at 10:45 p.m.

## THE CAMEL'S HEAD.

"Where the camel's head goes his body follows," says an Oriental proverb. It's the same way with disease. A small opening will give it entrance and then disease once has a place in the body a la, a number of ills may follow. The opening for disease is often found in a weak liver, stomach. When the body also becomes weakened by lack of nutrition, and disease attacks the heart, liver, lungs, kidneys and other organs.

Dr. Pierce's Golden Medical Discovery makes the weak stomach strong. It cures diseases of the stomach and other organs of digestion and nutrition, and so enables the body to resist or throw off other diseases.

Men and women who are sick are invited to consult Dr. Pierce, by letter, free, and so obtain without charge the opinion of a specialist on their ailments. All correspondence strictly confidential. Address Dr. R. V. Pierce, Buffalo, N.Y.

For the past two years I have been a very sick man, writing to Dr. Pierce, Buffalo, N.Y. I tried medicines from doctors and to no avail. At last I decided to consult Dr. G. W. Brown's Golden Medical Discovery. When I started I was all run down and had a very unpleasant taste in my mouth. Was able to eat, but at times it was very hard for me to breathe. I was in constant pain and swelling pains in my knee joint. Was so weak I could not attend to my work nor walk up or down stairs. I am now taking Dr. Pierce's medicine and am happy to say I feel like myself again. I can go up and down stairs and perform my work. I can assure you that life is worth living."

No substitute for "Golden Medical Discovery." There is nothing just as good for dyspepsia or debility.

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

When writing please refer to this paper.

"THE THREE ESSENTIAL FACTORS" in  
"SALADA"

Ceylon Tea, Purity, Strength and Quality combined with healthfulness in use. Sealed packets only. 40c, 50c, and 60c. a pound. Black or Natural Green.
